

Habituation/dishabituation test

HS Hitoshi Sakano

Updated date: Jul 6, 2021

 An abbreviated version of this protocol was published in eLIFE in Mar 2021

The olfactory critical period is determined by activity-dependent *Sema7A/PlxnC1* signaling within glomeruli

DOI: [10.7554/eLife.65078](https://doi.org/10.7554/eLife.65078)
